Dear Parents/Guardians,

Welcome to the 2025-26 school year!

I hope that you and your family have had an enjoyable summer. I am so excited to begin this year as we work together to provide all our students with a quality education that will prepare them for the future.

For our students to achieve their dreams later in life, they must work hard now and learn the academic and social skills necessary to take them wherever they wish to go. We believe in a strong partnership between home and school, so our students will excel in all areas of life. It truly takes a village to ensure students' success in school and life, and we are thankful that you have put your trust in the Academy of Arts & Technology.

We are excited about the learning experiences in store for your child at AAT. Your child will learn foundational skills (such as phonics and math facts) and will engage in advanced problem solving to increase critical thinking. We are excited for the additions to our program this year including a k-4 art focus, music, technology, and CBI for our middle school students. At the Academy of Arts & Technology, we plan to prepare your most valued treasure for success in the real world by providing them with a well-rounded educational experience.

This packet contains important information. Please take a moment to review and complete any necessary forms. I look forward to working with you this year. Please feel free to reach out with any questions.

Sincerely,

Ms. Jennifer Hutton, Principal
